

Wine Importer and Distributer Migrates to New Data Center

Country: United States

Industry: Wine Importer and Distributer

Client Profile

Glen Allen, Virginia-based Winebow is comprises national importer and distribution houses that offer comprehensive portfolios of fine wine and spirits from around the world.

Business Situation

The Winebow Group was migrating their Dynamics NAV environment from one data center to another. They needed guidance on the best method to undertake this migration with minimal downtime, specifically, on how to achieve successful SQL database migrations.

Solution

Purely Cloud was recommended by their Dynamics NAV consulting company to assist and walkthrough the best method to move their NAV SQL Databases from their existing data center to their new data center.

Benefits to Winebow Group

- Complete migration assistance for SQL Server
- Keep line of business applications available with minimal downtime for the migration
- Insure data integrity is consistent and no data loss has occurred

SQL Server

SQL Server is the foundation of Microsoft's data platform delivering mission critical performance with in-memory technologies and faster insights on any data.

Business Needs & Solutions

The Winebow Group was moving to a new data center and was heavily constrained by the lack of a traditional downtime window for this transition. The importance of their Dynamics NAV ERP (enterprise resource planning) system to run their entire business added to the urgency and significance of the project. The information technology (IT) team and Purely Cloud worked together to form an acceptable timetable with the least interruption for the end-users and 100% data integrity. Winebow successfully completed the transition to their new data center location and business continued without incident.

"Purely Cloud supplied the expertise and assistance to successfully migrate our Dynamics NAV and SQL environment from our existing data center to our new one."
